Twitter with SMS
Sending tweets while you're away from your computer makes things much more interesting.
It's all done through text messages (aka "SMS"), which you probably use all the time anyway, so there's not much to learn.
Twitter doesn't charge anything for this, but standard text messaging rates or bundles may apply from your carrier.
If you use your mobile in the United States, the United Kingdom, Canada or New Zealand you can also receive tweets via SMS. You can text "OFF" to stop receiving and "ON" to start again.
